

# Tree House

**Tree House** is a series of group programs offered during the traditional school year for home-schooled students. These programs provide students with an opportunity to experience the natural world through fun, hands-on activities in a curriculum-based lesson.

All programs are staff led and intended for groups with a maximum of **25 students**. If there are additional siblings (age 2 and up) with your group, they will count as participants and are required to pay the program fee. Each program is **90 minutes** long and **costs \$5 per individual (students and parents)**.

Contact the North Carolina Arboretum at (828) 665-2492.  
Please visit [www.ncarboretum.org](http://www.ncarboretum.org) and click on the Field Trips page to register your student for a program.

## Monthly Programs at The NC Arboretum

**March 19, 2019 at 12:00pm**
